# IS4108- IS Strategies

---

LECTURE 07- DETERMINING THE BUSINESS INFORMATION SYSTEMS  
STRATEGY

# Activity

---

Select a business (bank, supermarket, university, hospital) and identify;

1. One business objective
2. One IS strategy that supports it

# Steps to Determine a Business IS Strategy

---

## 1. Analyze Business Objectives

Understand;

- Organizational vision
- Mission
- Strategic objectives / goals

**Ex:** A bank aims to improve digital customer experience

# Steps to Determine a Business IS Strategy

---

## 2. Assess Current Information Systems

Evaluate;

- Existing technologies
- Infrastructure
- Software capabilities
- Security systems
- Human IT skills

### Questions

- ✓ Are current systems outdated?
- ✓ Are they integrated?
- ✓ Do they support organizational growth?

# Steps to Determine a Business IS Strategy

---

## 3. Analyze Business Environment

Organizations must evaluate internal and external factors.

- SWOT Analysis
- PESTLE Analysis
- Porter's Five Forces

# Steps to Determine a Business IS Strategy

---

## 3. Analyze Business Environment cont.

### Case Study on Netflix

Netflix transformed from DVD rentals to digital streaming after analyzing technological trends and customer behavior.

### Strategic IS Decision

- Cloud computing
- Recommendation algorithms
- Big data analytics

### Outcome

Became one of the world's leading streaming platforms.

# Steps to Determine a Business IS Strategy

---

## 3. Identify Information Needs

Determine;

- What data is needed?
- Who needs it?
- When is it needed?
- How should it be delivered?

# Steps to Determine a Business IS Strategy

---

## 5. Develop Strategic IS Solutions

Ex:

- ERP systems
- CRM systems
- Cloud computing
- AI solutions
- Cybersecurity frameworks
- E-commerce systems

# Steps to Determine a Business IS Strategy

---

## 6. Prioritize Investments

Organizations cannot implement everything at once.

### Factors Considered

- Cost
- Risk
- Business value
- Urgency
- Return on Investment (ROI)

# Key Components of the IS Strategy

---

| Component           | Description                       |
|---------------------|-----------------------------------|
